Subject: VOCs statement: Comparison with limit value of Belgian Regulation

To whom it may concern:

We hereby declare that Trimo d.o.o. has performed analysis and measurements of emissions of volatile organic compounds (VOC) for the products **Qbiss One and Trimoterm**. All tests have been carried out in an accredited test laboratory according to EN 16516 and ISO 16000-6. The testing methods are accredited in accordance with EN ISO/IEC 17035.

Trimo declares that all measurements and compounds content for **Qbiss One and Trimoterm** products with typical internal steel sheet have been found to be below the minimum levels required for building materials for indoor use, according to Royal decree of May 2014 (C-2014/24239).

Parameter	Limit value after 28 days
TVOC (EN 16516)	$\leq 1000 \mu\text{g}/\text{m}^3$
TSVOC	$\leq 100 \mu\text{g}/\text{m}^3$
R-value	≤ 1
Total carcinogens	$\leq 1 \mu\text{g}/\text{m}^3$
Toluene	$\leq 300 \mu\text{g}/\text{m}^3$
Formaldehyde	$\leq 100 \mu\text{g}/\text{m}^3$
Acetaldehyde	$\leq 200 \mu\text{g}/\text{m}^3$

Should you require any further clarifications or information do not hesitate to contact us.
